

# New On-line Registration!

Introducing our newest addition, our on-line registration program. It's as easy as 1-2-3.

1. Click on the Community Center's home page at: [www.communitycenter.dsu.edu](http://www.communitycenter.dsu.edu) and follow the on-line registration link on the far right.
2. When using the on-line registration or at the Community Center's Front Desk, always remember to use your primary email address when registering for programs. This will ensure your family's activities will be under one primary account.
3. Create your personal/family on-line account.

Simple and fast. No more standing in line, plus you'll have the convenience of registering for your favorite Community Center and Park & Rec programs, anytime, day or night.

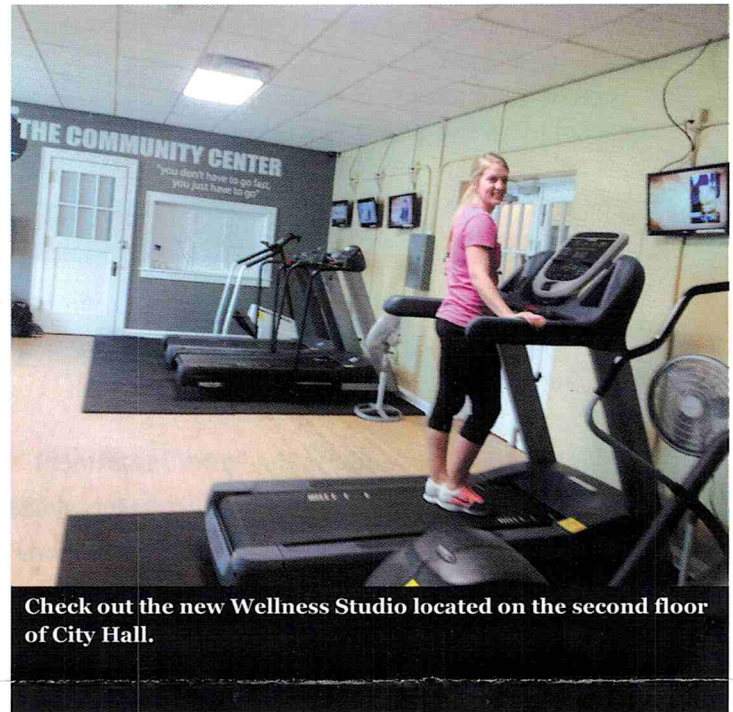

## **NEW Birthday Party Room**

The Community Center has three rooms ready to host your next birthday party. A room rental will provide you and your guests access to the entire Community Center

(pool, gyms, Family Rec Cave, etc.), including a kitchen with refrigerator, freezer, oven, microwave, and tables/chairs. Outside food and beverage is

allowed. Room rentals start at \$15/hour for members and \$20/hour for non-members. Call the Front Desk at 256-5837 to reserve a room for your next birthday party.

Check out the new Wellness Studio located on the second floor of City Hall.

## **Opportunities**

Offering Butt & Gutt, Tabata & Extreme Jump in our fitness line-up that will get your body toned, firmed and pushed to the limit. Don't forget our MadManMini Triathlon and Swim Tri-Training class either.

Our newest facility, the Community Center Wellness Studio, offers 24/7 access to work out on your time schedule. KEY FOBS may be purchased at the Community Center's Front Desk. Let this be the year to get fit and healthy.

## **Winter/Spring Brochure**

Now available at the Community Center's Front Desk. You will see all of your favorites, plus a new repertoire that will soon become your favorite.

Steady progress is continuing on Madison's Water Treatment Plant improvements. PKG Contracting crews arrived in July to begin construction on the project, which is scheduled to be completed in the summer of 2014. Included in the project will be a new pump station and underground clearwell, new raw water piping into the existing treatment plant, replacement of the current filter underdrain and media system, and modifications to the current site piping entering the distribution system. Also included in the project will be the replacement of the current aging underground clearwell with a new one million gallon above ground storage reservoir.

Crews have completed construction of the underground clearwell and pump station. The above ground reservoir's floor has been poured, and soon crews from the manufacturing company will arrive to construct the tank. Crews are currently installing site piping and hope to get as much completed as possible before cold weather sets in, making ground work more difficult.

Focus will shift inside this winter to the replacement of the Water Treatment Plant's four

Construction of the above ground storage reservoir.

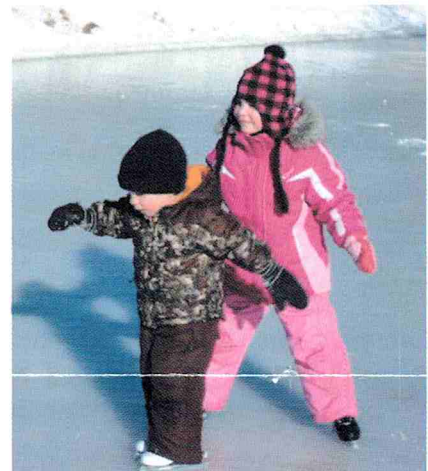

filters along with the installation of new electrical and control equipment in the new pump station. Ammonia feed equipment will also be installed which will allow the use of chloramines as a disinfectant to better control disinfection by-products throughout the system.

## Ice Skating

"Ice" is the word for winter in the Parks Department. We are happy to announce that we again have three ice rinks in the Madison Parks Department. Totland Park located at NE 7th Street and Roosevelt Avenue; East Center Park located at Garfield Avenue and East Center Street; and the newest one at Memorial Park which is found at NW 5th Street and Bianche Avenue.

- Totland Park rink is unsupervised with no warming shelter.
- East Center Park rink has an unsupervised warming shelter that can be used, free of charge, by checking out a key at the Community Center. Please call Nick at 256-7546.
- Memorial Park rink has been brought back to life this year. The last time it was flooded was February of 1999. This effort was spearheaded by the 2011-12 Leadership Madison Community Service Group "Engaging Families". The group raised funds, provided some of the labor and will be donating the warming shelter to the City. Come out and skate under the lights! Future plans include music, hot chocolate, candy and skate rentals.

Portable toilets will be available at all three rinks. We look forward to seeing you "on the ice."

### Tentative warming shelter hours are (weather permitting):

M-F 4pm-8pm (close at 7pm if no skaters)

Saturday and Sunday 12pm-6pm
